

Dear All,

As you know the EPDS-Online application has been launched and now data entry should be started as per direction in the training.

URL For data entry is

<http://164.100.180.122/epds2017> or You may visit <http://lucknow.nic.in> there you will get the link {**On-line data entry for Vidhan Sabha election 2017**} both are same. Login Id & password for data entry will be communicated at mobile phone of HOD through SMS

I would like to mention few points for your help:-

1. We have provided video help “How to make data entry in FORMS”
2. More than 160 Master designations have been provided in Operator Login. Now Offices may select designations from master designation list and designations not found in the list may be added.
3. Now Offices may freeze data of their employees after completion of data entry. They have to submit signed copy of the list generated by the software in the office of O/C Personnel. The O/C personnel will cross check it with FORM-1 and will check whether the office has freezed the data of his employees.

Regards

Election Team NIC Distt. Centre Lucknow
